Crossing safely:

[Back To Learning Centre](#)[Back To Homepage](#)

Step 1:

Always try to find a zebra crossing or pelican crossing nearby if there's one available. If there isn't, find a safe place that gives you the opportunity to cross, usually the sidewalks.

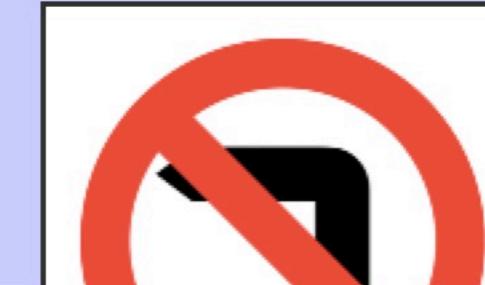

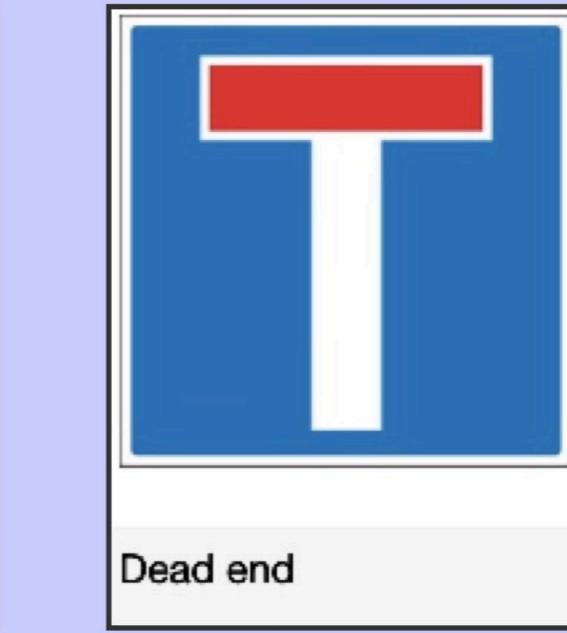

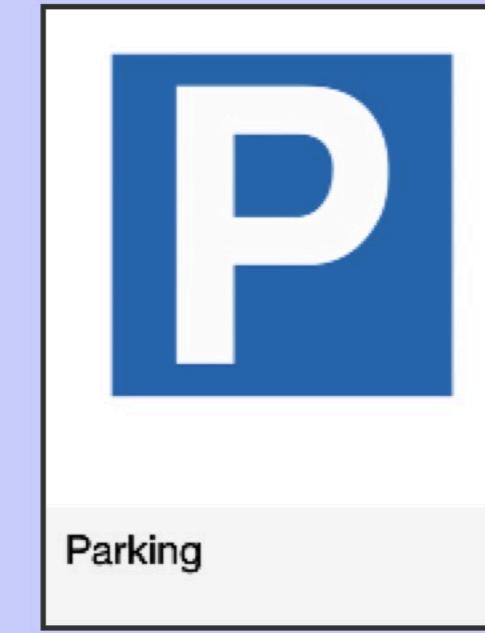

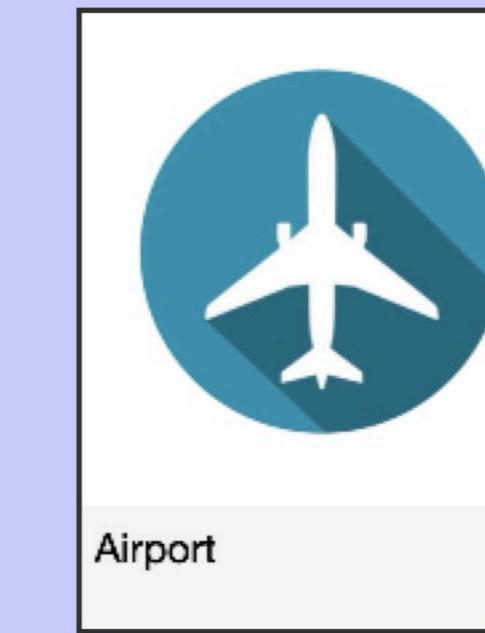

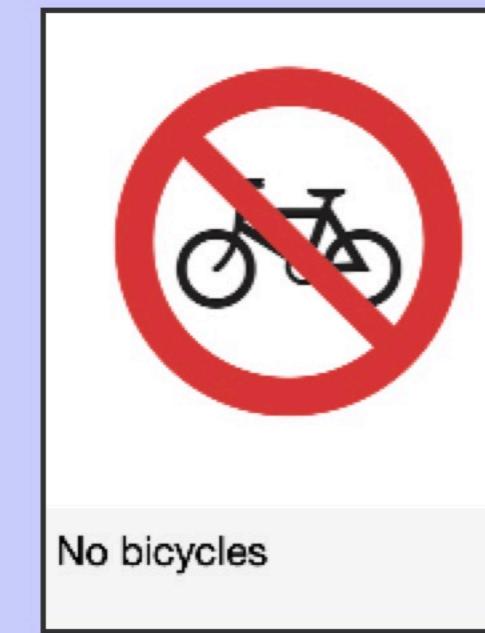

Car safety:

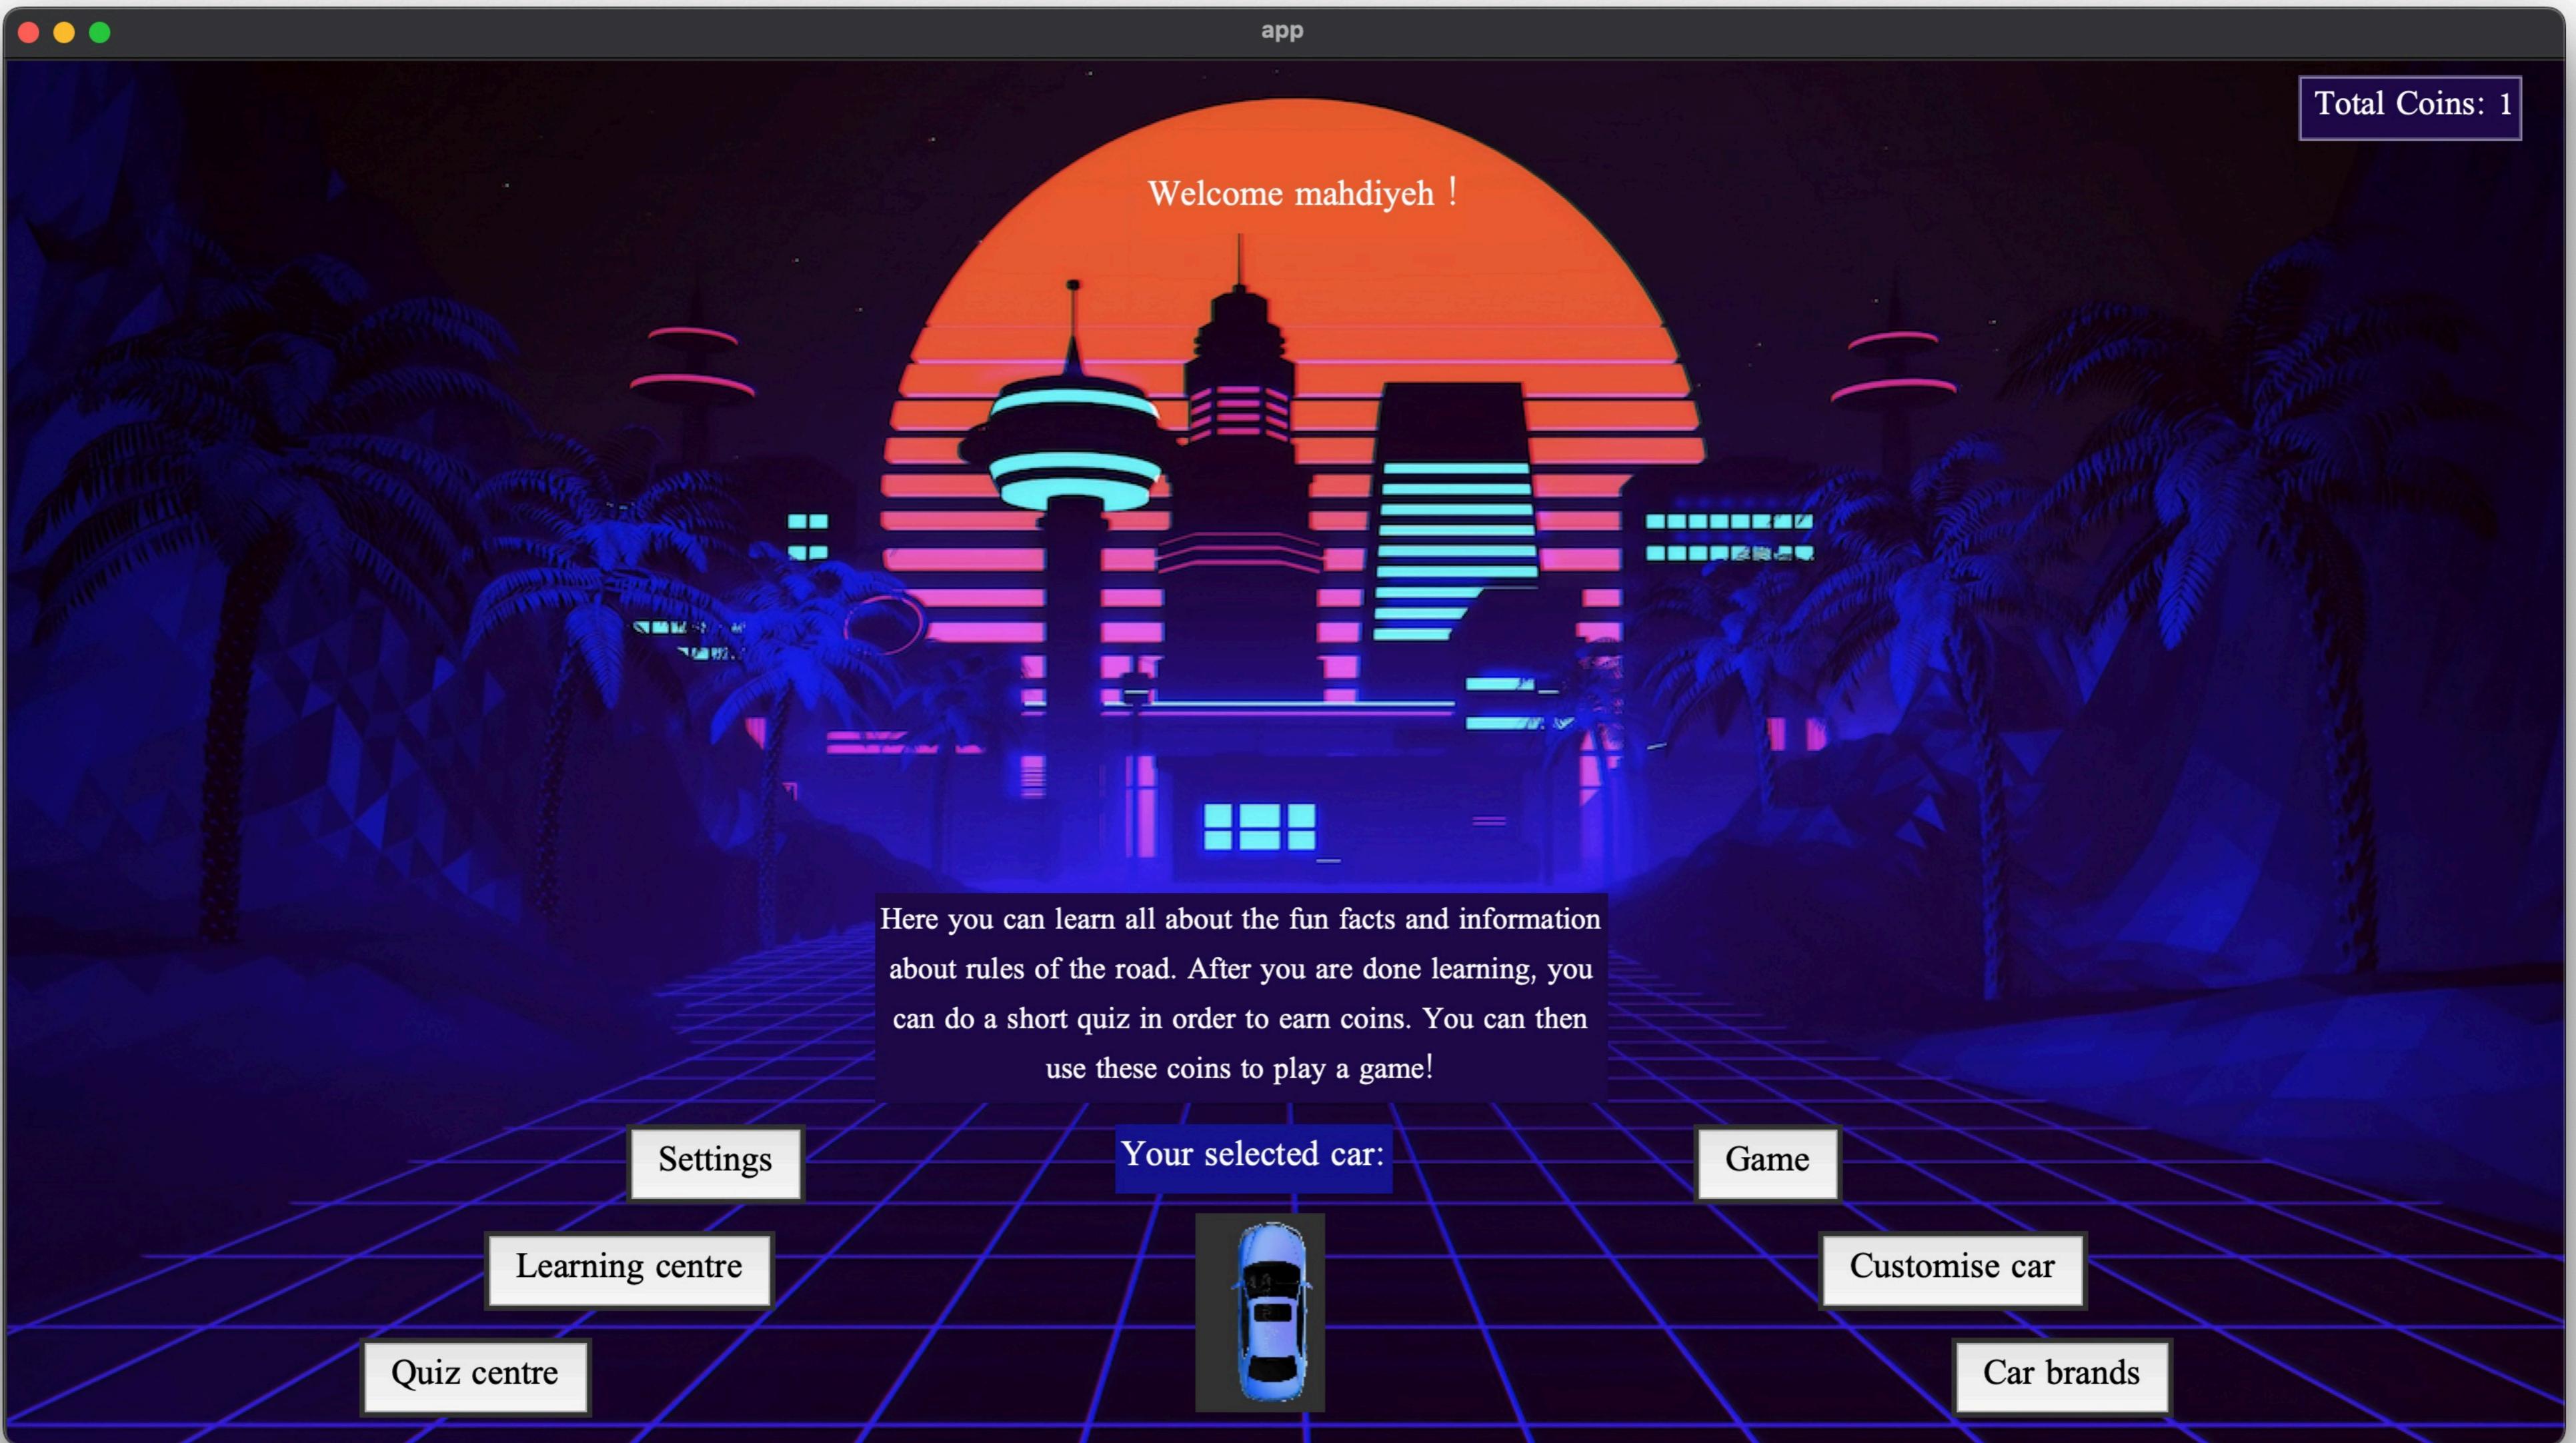

[Back To Learning Centre](#)[Back To Homepage](#)

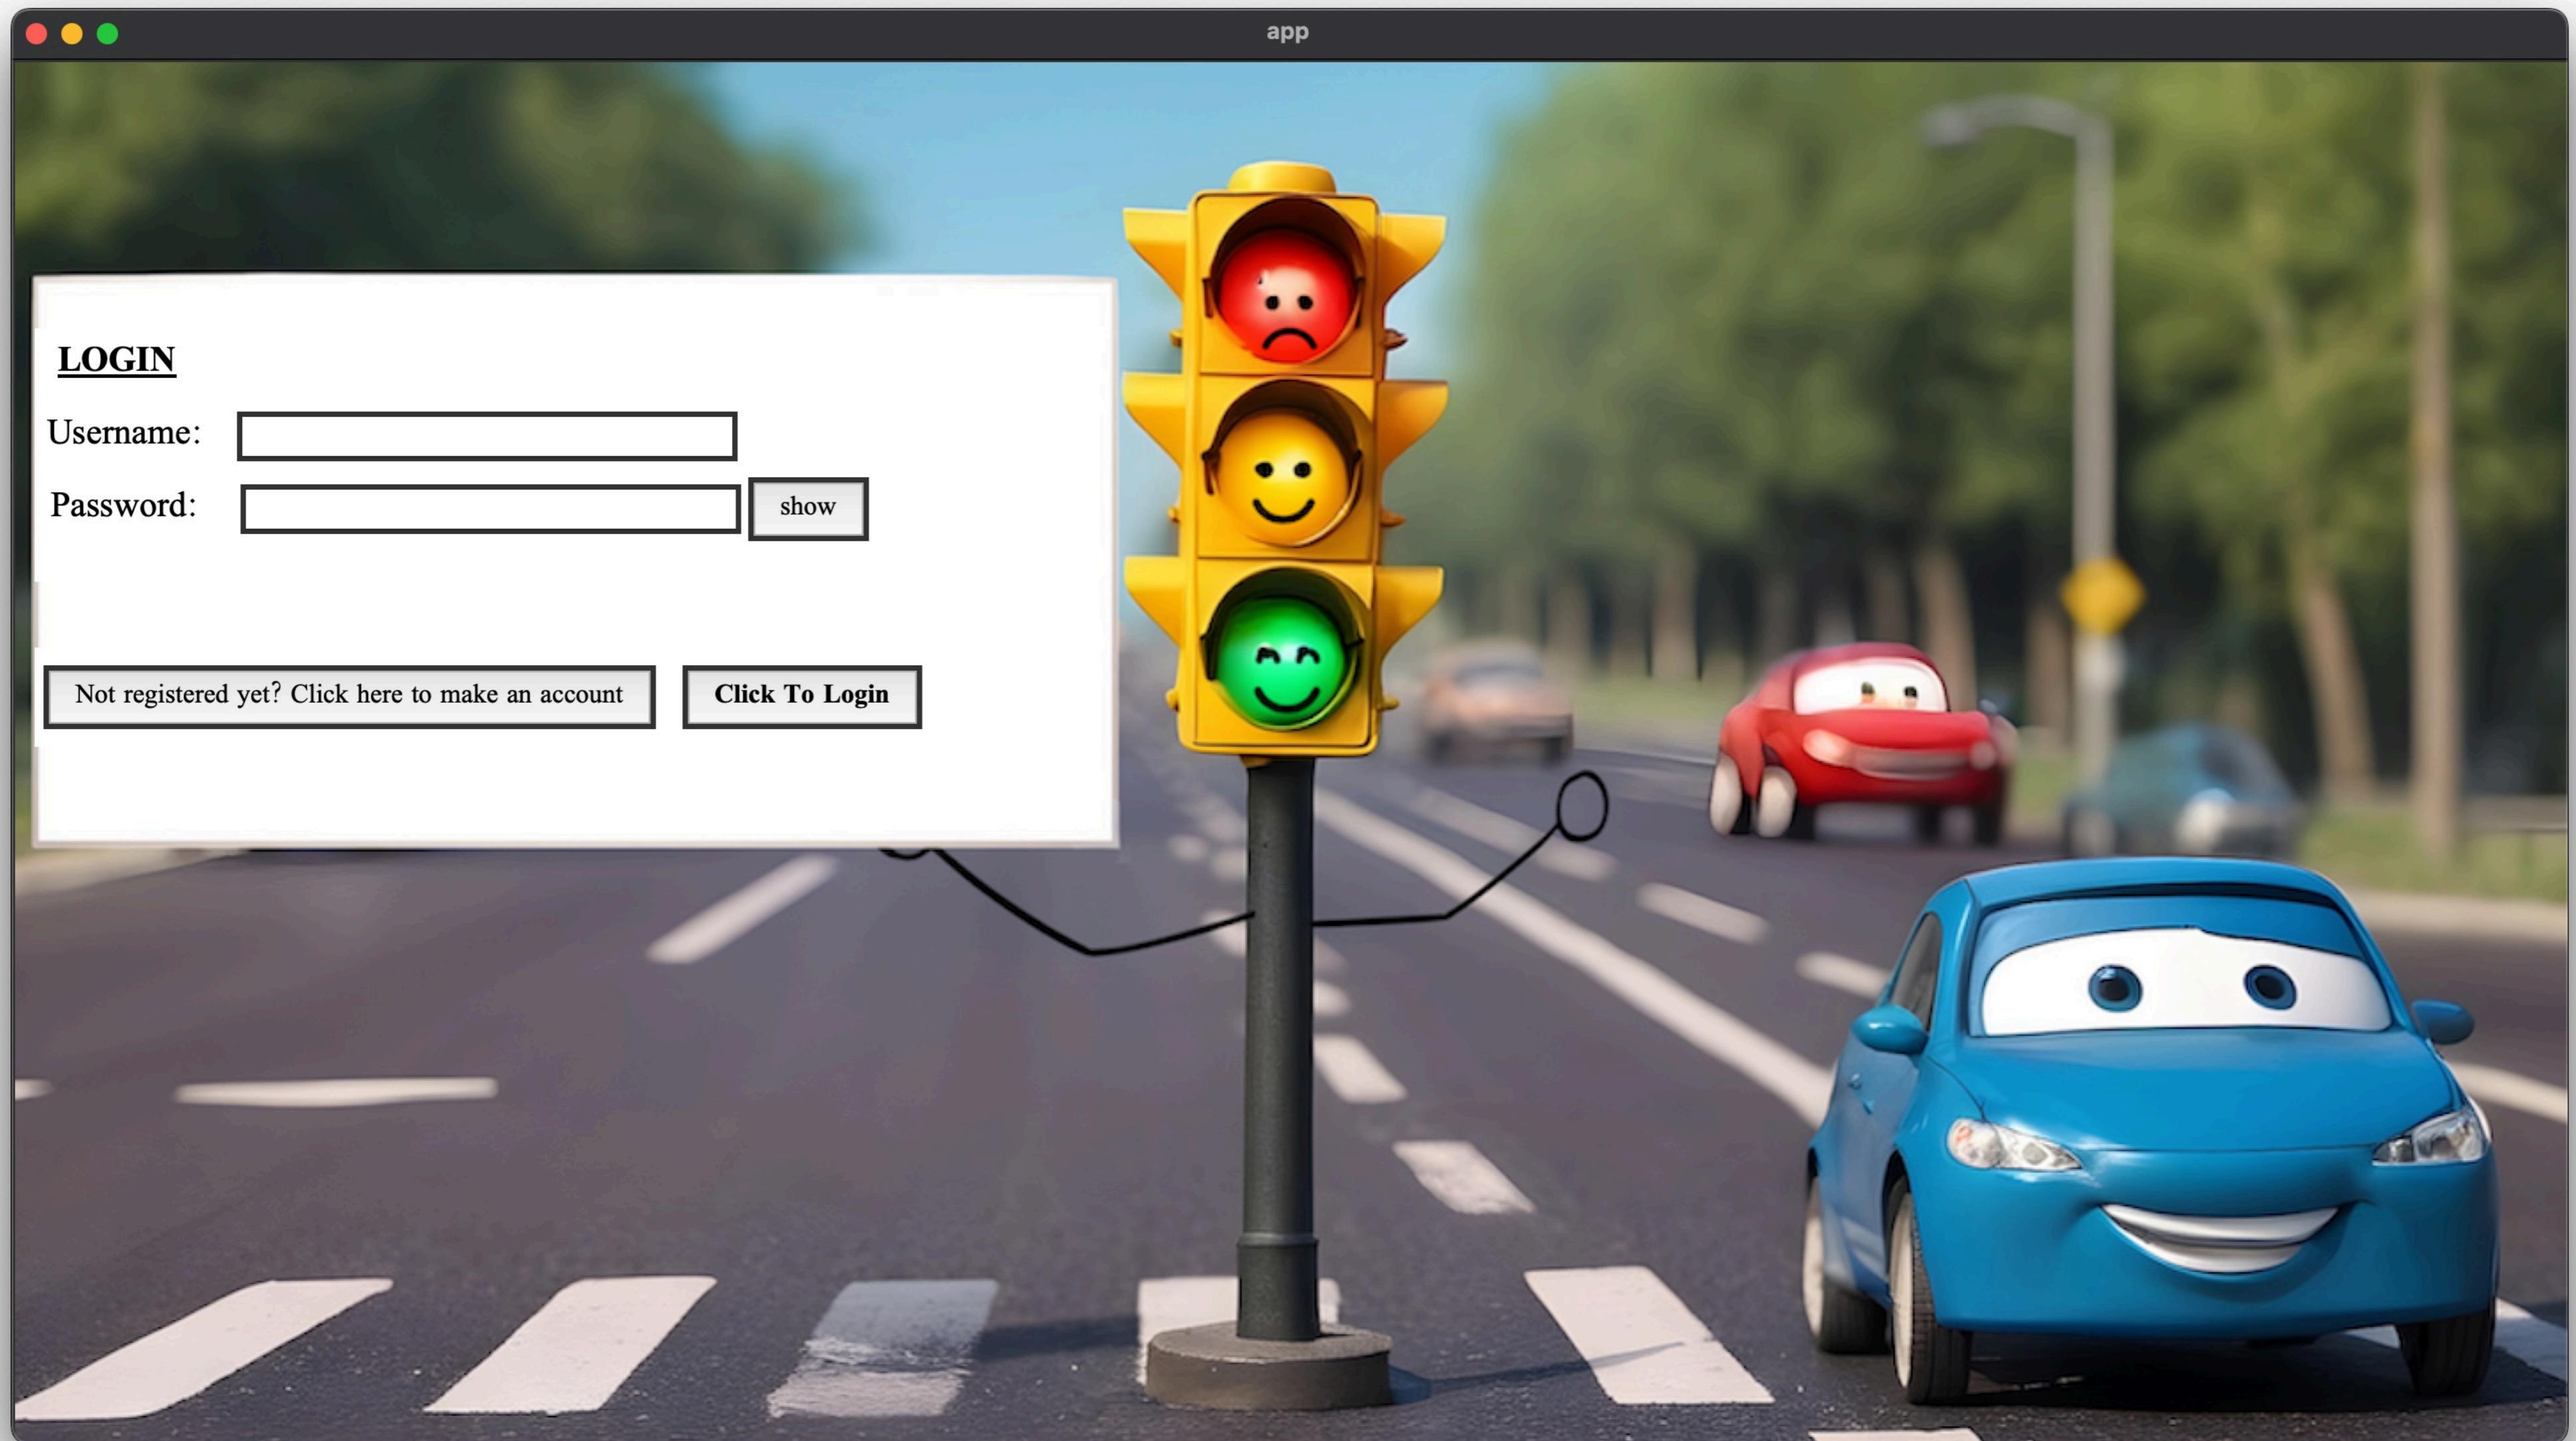

Here are some tips on how to stay safe while inside a vehicle:

- Whenever you enter a car always put on your seatbelt. This helps reduce the chance of getting injured if anything unexpected occurs.
- Avoid sticking your hands, arms and legs out of the window. It's very dangerous and can cause injury especially if the vehicle is moving.
- If your car has a child lock, make sure it's activated to prevent accidentally opening doors while the vehicle is moving.
- Never play with the car controls. For example the hand brake or the wheel.
- Don't lean against the door as they might open unexpectedly.
- Never play with the car keys or try to start the car yourself.

Which best
describes you:

A large, vibrant illustration occupies the right side of the screen. It features a bright yellow car with three red circular lights on its roof, positioned on the left. To the right of the car is a young boy wearing a yellow construction-style hard hat and a yellow vest over a light blue shirt. He is smiling and riding a green and black kick scooter. The background shows a blurred landscape of green fields and a blue sky, suggesting motion or a sunny day.
